Innovative Targeting Solutions Initiates Research Collaboration

Burnaby, BC – January 19, 2012 - Innovative Targeting Solutions Inc (ITS), the developer of the next generation fully human antibody technology (HuTARG), today announced the initiation of a research collaboration with Amgen Inc. (Thousand Oaks , CA). The agreement will allow Amgen to assess ITS's HuTARG technology for a broader potential collaboration in the future.

About Innovative Targeting Solutions Inc.

Founded in 2008, Innovative Targeting Solutions Inc. is a privately-held company that has developed a next generation platform for the generation of fully human antibody therapeutics using its proprietary HuTARG technology. The HuTARG technology is a fully mammalian technology that generates antibody diversity *in vitro* via RAG1/RAG2 mediated V(D)J recombination.
