### Innovative Targeting Solutions Granted U.S. Patent

Burnaby, BC – September 6, 2011 - Innovative Targeting Solutions Inc., the developer of the next generation fully human antibody technology (HuTARG), today announced issuance of U.S. patent 8,012,714 B2 covering the core technology.

#### About Innovative Targeting Solutions Inc.

Founded in 2008, Innovative Targeting Solutions Inc. (ITS) is a privately-held company discovering novel protein medicines. ITS has developed a next generation platform for the generation of fully human antibody therapeutics. The HuTARG technology is a fully mammalian technology that generates antibody diversity in vitro via RAG1/RAG2 mediated V(D)J recombination allowing for tolerance free repertoires.
